

Sprint 1 Meeting notes

Meeting minutes should be taken during client meetings, sprint reviews, and team meetings.

team grade: is collaboration, how people do work or work together.

*confluence uploading files and images, Alex will send the group screenshots on how to do this environment to work in (Server etc..) : the choice of technology is up to the team

- **What technologies does the client use**

- remember that continuous integration will be a big part of the grade. (Good tests)

Tests:

test to make sure the logic works.

usability study with the client is preferred.
